

[SubmitWizard Landing Page]

BE SEEN BY MAJOR SEARCH ENGINES

Use SubmitWizard to automatically submit your Web site to more than 175 search engines and online directories, and learn how to improve the performance of your Web site.

Top Features

- Includes [detailed site analysis reports](#) that identify opportunities to improve your search engine rankings and your overall site performance.
- Creates ideal [META tags](#) for your site and generates HTML code instantly — for improved listing, simply paste the code into your pages' code heading area.
- Evaluates [link popularity](#), scouring the Web to report which sites link to yours — an important factor in many search rankings.
- Automatically submits your site to more than 175 search engines and directories representing 90% of online searches, including Yahoo!®, Google™, and more.
- Automatically refreshes your submissions every month.
- Monitors your site performance all day, every day, through [Uptime Monitoring Reports](#).
- One subscription includes two Web sites.

META tags

Many search engines use your site's META tags to help determine ranking. META tags generally include search keywords, page title, and page description. SubmitWizard Professional includes analysis tools that evaluate your META tags for optimal search engine placement, plus a META Tag Generator that identifies search keywords (META tag keywords) based on your site's content and then generates the HTML code for you to add to your site's pages. The generator also identifies when META descriptions and titles are missing and prompts you to create them.

Meta Tag Contents:	
Tag Type	Tag Data
Title Tag	<TITLE>Home page</TITLE>
Meta Description Tag	Warning! Your site needs a META Description tag!
Meta Keywords Tag	Warning! Your site needs a META Keywords tag!

Meta Tag Content Summary:			
Tag	Type	Word Count	Character Count
Title	Tag	2 words	9 characters
Meta	Description	0 words	0 characters
Meta	Keywords	0 phrases	0 characters

Uptime Monitoring Reports

SubmitWizard Professional monitors your site's uptime all day, every day and gives you valuable data that allows you to compare your site's performance against the top 50 Internet leaders.

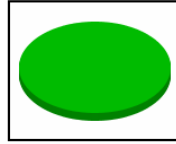

Legend:
■ Up State
■ Warning State
■ Critical State

Today's Uptime Percent Report

This Week's Uptime Percent Report

This Month's Uptime Percent Report

	Bus50			Your URL		
	Up	Warning	Critical	Up	Warning	Critical
Today	99.74%	0.00%	0.26%	100%	0%	0%
Last Week	99.89%	0.00%	0.11%	100%	0%	0%
Last Month	98.43%	0.00%	1.57%	100%	0%	0%

The Uptime Comparison report compares your site uptime with the Business 50 uptime average. The purpose of this report is to give you easy access to benchmark information so that you can compare your site uptime to the top businesses on the Web. This report will give you your uptime percent average for the current day, the current week, and the current month compared with the Business 50 averages.

more than 175 search engines and directories

Almost 95% of Internet surfers start their journey with a search engine, which means millions of searches are performed daily. A fundamental step in marketing your site is submitting your site properly to the major search engines, a process which can take days and must be repeated regularly to keep your submissions up to date. SubmitWizard does the work for you, automatically submitting your sites to top search engines such as Yahoo! and Google, plus 175 more, covering over 90% of the searches performed on the Web.

Note: Some of these search engines do not accept site submissions, but index other search engines contained within this list.

refreshes your submissions every month

Because search engines crawl the Internet every four to six weeks, it is important to resubmit your Web site monthly to stay listed in search engines. SubmitWizard takes care of this work for you, and automatically includes any recent updates to your site.

improve your site performance

SubmitWizard Professional scours your Web site content to produce statistics and provide recommendations and tools to improve your site performance.

- You'll see how long it takes for each of your pages to load depending on the visitor's connection speeds (including various dial-up and broadband speeds). Large images are tagged for possible optimization.

Load Time by Modem Speed:	
Connection Speed	Load Time
14.4K	0.07 seconds
28.8K	0.04 seconds
33.6K	0.03 seconds
56K	0.02 seconds
ISDN 128K	0.01 seconds
T1 1.44Mbps	0.00 seconds

- You'll see compression levels for each image on your site with specific recommendations to reduce load time. With the click of a mouse, SubmitWizard lets you preview compression options and save replacement images for upload to your site.
- You'll see your site's compatibility with various browsers to help you determine if your visitors see your site the way you intended. Browser compatibility details are available by tag, by browser, or by line.
- All of the HTML code used in your pages is analyzed for errors and warnings. The errors are reported by line so you or your site developer can easily make the needed changes. Broken links and images are displayed by URL so you can isolate any link problems and make adjustments. Potentially misspelled words are listed in a table with correct spelling recommendations.
